LESS FRICTION, MAKES IT EASIER.

GREASE GUNS, OIL PUMPS AND OTHER FLUID DISPENSERS.

Urrea offers a complete solution in equipment, tools and accessories for handling oil, grease and other fluids required throughout the industry in general.

These products will allow the user to work more safely and efficiently while adding different oils or fluids to Urrea pumps and dispensers.

These products are generally used in multiple sectors such as agriculture, mining, food industry, automotive industry, processing industry, construction industry, among others. In this section you will find extractor pumps manufactured in different types of materials that allow us to work with virtually all types of fluids, such as corrosive liquids, solvents, acids, detergents, among others.

They can be adapted to multiple containers, such as drums, buckets or even have their own container to facilitate their movement to the work area. Including manual, pneumatic and battery-operated grease injectors to meet occasional maintenance work to continuous lubrication work.

Wide selection allows the user to select the best option according to their requirements, both performance and ergonomically. You also find various accessories to complement the use of equipment and tools and can adapt them to more specific uses. The commitment of all Urrea products for the management of oil, grease and other fluids is to make it easier, faster and safer for the user during work.
OIL CONTROL PISTOLS

- Accuracy +/- 1%.
- Repeatability 0.30%.
- Maximum working pressure: 1000 psi (70 BAR).
- Resolution: 0.10 liters or quarts a gallon.
- High accuracy and flow dispenser control.
- Recommended for: oils with viscosity up to SAE grade 140, diesel, kerosene, engine coolant (RTU).
- Do not use with: oil, gasoline, or water based fluids, etc.

PUMP GUIDE SELECTION

OIL PUMPS

- Dispenses 3x the product: one level turn equals 3 inner vane turns.
- Fits 15 to 55 gallon barrels.
- Recommended for: gasoline, diesel, kerosene, lubricating oils up to SAE 30.
- Do not use with: corrosive liquids, solvents acids, alkaline liquids.

- Dispatch 5 liters per each 20 turns.
- Rotor material: Ryton®.
- Material of other components in fluid contact: Polypropylene, Ryton® and Viton®.
- Adapts to “2” threads.
- Quick and easy assembly.
- Resistance to chemical products and solvents.

- For dispensing diesel, kerosene, heating oils, lubricating oils (up to SAE 90) and other non-corrosive media.
- Do not use with: water base media, solvents acids, and gasoline.
- Dual directional operation.
- Pump body is sturdy cast iron with precisely machined cast iron vanes for better draw and smoother delivery.
# VERTICAL LIFT BARREL PUMPS

- Stainless steel filter inside the suction tube.
- Built-in fuse for overload protection.
- Supplies 4.86 GPM.
- Maximum operating temperature: 140 °F.
- Made of polyamidimide.
- 12V DC motor.
- Ideal for field work thanks to its connection to batteries of trucks and tractors (clamps included).
- Diesel, kerosene, biodiesel, DEF, water-based fluids, antifreeze liquid, detergents, light oils up to 100 cSt, pesticides and herbicides.

- Pump made of polypropylene, rod made of steel and plunger made of Viton®.
- Recommended uses: antifreeze, detergents, glycerin, weak acids, liquids oil base.
- Do not use: strong acids, hairspray, acetone, gasoline, etc.
- Fits 2" threads and adapts to containers of 54 gal.
- It has a drainage system while not in use.

- Plastic lever extraction pump.
- 2" incorporated adapter to use in barrels of 13.2 - 54.1 gallons.
- Convenient and comfortable design for pumping without fatigue.
- Materials used make it versatile for use with water-based fluids, and some chemicals.
- Water-based fluids, detergents, soaps, antifreeze liquid, windshield wiper, hydraulic oils, lubricants, herbicides, pesticides, adblue, urea, DEF, etc.

- Hand-operated pump.
- Made of steel alloy, for greater strength and durability.
- Efficiently pumps under any type of weather.
BARREL WRENCH

- To open most 2" and 3/4" barrel caps.
- Made of cast aluminum (AM5), hardened and tempered for strength.
- It does not spark, it is safe to use in flammable areas and fuel tanks.
- Due to its design, it reduces the force necessary to open the barrel, preventing injuries to the user.

FAUCET FOR BARRELS

- Great resistance to corrosion.
- With hole for padlock.

- Fits plastic or metal 54-gallon drums.
- 2" screw.
- Made with polyethylene.
- Not to be used with gasoline, chemicals or solvents.
- Hole for paddlocks to prevent theft of fluids.
- Easy installation without using any tool.
- Practical hook to hang the container during filling.
- It facilitates the delivery of fluids with the barrel placed horizontally.

TRANSFER PUMPS

- 3 in 1 pump.
- Fixed or portable: to transfer liquids from one tank to another.
- Drainage pump: to drain flooded areas.
- With option to be fixed on walls or columns.
- For water, sea water, diesel, biodiesel, kerosene, gasoline, mineral oil or synthetic, antifreeze, emulsions or liquids with small particles suspended.
- Not recommended for ammonia or food fluids.

<table>

### Flexible Pump Oilers

**2265**
- 32 oz
- $22.09

**2264**
- 16 oz
- $22.09

**Pistol Flexible Spout**
- Includes high pressure hose 2m x 1/4".
- Delivers 1oz/stroke.
- High pressure with pedal.
- Drive pedal. Frees both hands of the user to raise their productivity.
- Recommended for grease NLGI 1, 2 & 3.

### Anti Splash Funnels

**EMB1**
- 101.4 oz
- 9-3/64" to 9-41/64"
- $22.60

**EMB2**
- 57.4 oz
- 8-5/64" to 6-11/16"
- $18.34

- Made of polypropylene.
- Designed with special contours in the body for easy handling.
- Anti-splash and spill proof with curved edges.
- Made in a translucent white for better vision of fluids.
- Has a dust cover.
- Flexible channel.
- Container has a fixed cap.
- Pressure booster “increases the air pressure”.
- Hole height of 6 feet (Parker®).
- For heavy duty lubrication use and preventative maintenance.
- Reformed valve for high pressure.

### Straight Oilers

**2261**
- 32 oz
- 30°
- $25.06

**2260**
- 16 oz
- 30°
- $22.43

### Super Duty Bucket Grease Pumps

**23629**
- Total Capacity 66 lb
- Pressure booster “increases the air pressure”.
- Hole height of 6 feet (Parker®).
- For heavy duty lubrication use and preventative maintenance.
- Reformed valve for high pressure.

**23628**
- Total Capacity 33 lb
- Pressure booster “increases the air pressure”.
- Hole height of 6 feet (Parker®).
- For heavy duty lubrication use and preventative maintenance.
- Reformed valve for high pressure.

### Bucket Grease Pump with Wheels

**23622**
- 44 lb
- 4,000 psi
- $431.71

**23623**
- 22 lb
- 4,000 psi
- $541.36

- Variable handle setting.
- Includes 2 m x 1/4" I.D. high pressure rubber hose.
- Air release valve for easily removing trapped air from grease.
- Recommended for grease NLGI 1, 2 & 3.
Handling of Grease, Oil and Other Fluids

**Grease Gun Accessories**

**New**

**SUPER DUTY**

**Bucket Grease Pump**

- Air release valve for easily removing trapped air from grease.
- Variable handle setting.
- Includes 2 m x 1/4" ID high pressure rubber hose.
- Recommended for grease NLGI 1, 2 & 3.

**Grease Pumps for Bucket**

- Supplies 2 oz/pump.
- Fits on 5 gallon buckets or drums.
- Manufactured in heat-treated steel with high resistance to wear and high pressures.
- Retractable jaw with lever.
- Working pressure 8000 psi.
- 1/8" NPT screw.
- Air release valve for easily removing trapped air from grease.
- Optimizes the delivery of grease. Ideal in agriculture, construction and industry, as well as automotive services and lubrication equipment.
- Allows free hands during lubrication tasks, once connected it does not need to be fastened.
- Reduces cost, due to its optimal delivery of leak-proof lubricant.

- Powerful 19.2V high torque motor.
- Standard 1.5Ah Ni-Cd battery pack.
- Automatic air release valve & bulk loader.
- Comes packed in a blow moulded case for safe storage & ease of transportation.
- Designed for use by mechanics, technicians, maintenance staff, farmers, etc. for everyday greasing & preventive maintenance jobs.
- * Batteries not included.
HANDLING OF GREASE, OIL AND OTHER FLUIDS
